

GENERAL ASSEMBLY

Welcome to the Data Science Immersive Application

The DSI admissions process is broken into 3 sections, each listed below. Please keep in mind, this application process is our way of understanding your fit in our full-time courses. It's extremely important to show us why you would be a good fit and what motivates you to succeed. Be thorough and take your time. Our teams are excited to learn more about you and your journey to become a Data Scientist!

All 3 steps need to be completed prior to 5pm, the day before your in-person interview. Incomplete applications will not be considered for enrollment.

Part 1: Complete Your Application

This is your chance to show the DSI Admissions Committee your passion for pursuing a career in Data Science, so please complete every question thoughtfully.

Complete your official application [HERE](#).

Part 2: Data Analysis Challenge

This task designed to evaluate foundational data analysis skills and introductory algebra. This task is broken up into two parts: data analysis and presentation.

View task instructions and submit answers & presentation [HERE](#).

Part 3: Outcomes Assessment

The outcomes team is an integral part of your success as a student, both in-class and post-graduation. The aim of this task is to start you thinking about where your job search will take you at the end of DSI. It will also help us get to know you before you step onto campus.

Please complete your outcomes questionnaire [HERE](#).
